

# Let's get vaccinated.

It's the Rise of Gen V: Generation Vaccination!

Hello! It's me your girl, **Vee**.  
We are GenV: Generation Vaccination.

We are the rise of a  
**COVID-19 free generation!**

We are spreading real chats talk,  
**big facts** and no cap about the vaccine,

We are all about getting the people  
we love registered and getting  
registered when it's our time.

Let Vee and the squad put you on!

## Why Vaccinate?

It's the best defense against serious infections!  
Science proves this.

Vaccines do not give you the virus! It teaches  
your immune system to recognise and fight the infection.

The more we vaccinate, the closer we get to a  
COVID-19 free generation, and stamp out the virus.
